

# ML-0922

B4 Maintenance Platform  
with Stabil Stop™ Technology Ballast Braking System

Fail-safe braking system prevents movement and blocks casters from rolling or rotating when stopped

- Movable from long side and short (non-ladder) side
- Compatible with towing

Enhanced stability and safety from self-locking ballast braking system!

**WORKLIFT USA**

- ▶ **Fail-safe braking** - when handle is released, ballast lowers to lock casters in place
  - ▶ No need to manually lock/unlock casters
  - ▶ Enhanced roll away and tip-over protection
- ▶ Compatible with towing (optional tow kit)
- ▶ Movable from long side and short (non-ladder) side
- ▶ Working heights to B4 specifications (~36"-86")
- ▶ 500 lbs load capacity
- ▶ Includes detachable handle
- ▶ **Made in USA**
